PROFESSIONAL SUMMARY

Third-year B.Tech Information Technology student with project experience in full-stack web development and machine-learning-based network attack detection. Familiar with JavaScript, Node.js, Express.js, React (beginner), MongoDB, MySQL, and Python. Solved 350+ LeetCode problems and seeking to contribute to real-world web applications while continuing to strengthen software engineering skills.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, C
Frontend: HTML5, CSS3, React.js (beginner), EJS
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, MySQL, SQL
AI/ML: Scikit-learn, Pandas, NumPy, SHAP (project exposure)
Core Concepts & Tools: Data Structures and Algorithms, OOP, DBMS, Git, GitHub, VS Code

PROJECTS

MediCare — Hospital Reception Management System
React, Node.js, Express.js, MySQL, Socket.IO, JWT
• Built a full-stack hospital management application with separate Admin, Doctor, and Patient workflows.
• Implemented/documented JWT-based role access, appointment booking, real-time patient queue updates, and payment receipt generation.
github.com/SarikaKhoje/Hospital-Reception-MAnagement-System

WanderLust — Web Application
Node.js, Express.js, MongoDB, EJS
• Developed a server-rendered web application using Express routes and MongoDB-backed data handling.
• Practised backend routing, database integration, and connecting application pages to server-side functionality.

AI-Based Network Attack Detection and Forecasting
React, Vite, Tailwind CSS, FastAPI, Scikit-learn, SHAP
• Developed a project combining Random Forest network-traffic classification with a Gradient Boosting model for next-window attack-count forecasting.
• Integrated model workflows with FastAPI and a React dashboard; added rule-based risk scoring and SHAP-based prediction explanations.
• Forecasting is a proof of concept trained on 40 five-minute windows.

EDUCATION

B.Tech, Information Technology — Sanjivani College of Engineering, Kopargaon | 2024–2028 | First-year CGPA: 9.56/10
HSC — Radhabai Kale Mahila Mahavidyalay, Ahilyanagar | 71.33% | 2023–2024
SSC — M.M. Nirhali Vidyalay, Pathardi | 95.20% | 2021–2022

PROBLEM SOLVING & CERTIFICATIONS

LeetCode: 350+ problems solved | **GitHub:** github.com/SarikaKhoje
Full Stack Web Development — Apna College; Machine Learning — Skill-Learn; Infosys Springboard — Full Stack course (use exact certificate title); NPTEL: Data Structures and Algorithms using Java; Problem Solving Through Programming in C
